CPS family court corruption

30,023 Letters Sent So Far

Families are being abused by State CPS and Family Courts through out the United States of America, this is a major issue that needs to be addressed, Families that have had their civil rights violated through family court proceedings and the fact that all due process and constitutional rights are violated and manipulated by family court judges, District Attorneys, and Commissioners of /social services departments as well as CPS workers, and court appointed attorneys that are not working for the clients but have helped incriminate parents. Also of extreme interest, is obtaining names/phone/location of CPS workers who are falsifying or have falsified documents in court and who have lied in a court setting. The people of New York State and the People of the United States of America demand a full investigation of all departments, and the termination of department until further the people also wish to sue for government entrapment as well as a suit brought against the case workers, family court judges, and district lawyers. The People through discovery have found:

1. The imbalance of funding is creating corruption
2. Corruption has filtered through all manner of government and related agencies
3. Judicial decisions violate the public trust
4. Laws are created and passed that give parens patriae unlimited power not provided by the Constitution
5. The pendulum has swung to create a monopoly strategy of funding extracted from dwindling Social Services that have been set up to help families in need is devastating families across America
6. Children's lives are at stake while in the care of government funded agencies, such as rape, sexual abuse, physical abuse and neglect, mental abuse, and statistics show our children are being killed while in government placements out side of the parental home/or close relatives

7. That the states are not following guidelines placing children with relatives but are screening them out using different criteria with foster families, or falsifying documents to entrap parents and not keeping the children in the home with parents but removing the children without due process or any true purpose other than to incriminate parents/family members and to insure family is unfit

8. That pockets of tyranny are going unchecked without recourse

9. Congress local government/ civil and family courts is not responsive to The People

10. That The People have been turned away from civil courts, and from family courts higher court of appeals, only to remain battered and bruised by the tyranny of these local government funded courts as the judges, case workers/commissioners and district attorneys mock the outraged parents and children of which they so willingly strip of their civil rights and liberties

The People are declaring a public health crisis and human rights violation as well as their Civil rights are being stripped and taken from them and their families, as a result of these above atrocities and also In addition, The People find the Parens Patriae to be more than a doctrine but a specialized position created by the government for the government that violates Article 1 Sec 9, 10: No title of nobility or honors shall be granted by the United States. The title extends to the courts, Childrens Administration and public education violating Amendment 14 depriving persons of life, liberty and property without due process. The position applies as a collective.

The People are ordering an investigation of the departments as well as Family courts through out the United States of America and most important in New York State the people of the United States ask that all family court files,case files, court tapes, and videos be put into the investigation, as well as there be a federal lockdown on all CPS and family courts so that no tampering of documents can be done by such agencies, the fact is family court documents will show the fact that they are mishandled and manipulated by these agencies to insure incriminating charges are inevitable and due process is not being carried out, civil rights are violated, all human rights are violated and the United States Constitution is not on the agenda of these agencies. And the people of the United States of America are being abused by these powers.

The Muslim who attacked Donald Trump, Khizr Muazzam Khan, is a Muslim Brotherhood agent, working to bring Muslims into the United States. After reading what we discovered so far, it becomes obvious that Khan wanted to 'trump' Trump's Muslim immigration policy of limiting Muslim immigration into the U.S.

Here is my story. I and my husband are wrapped up in this Texas croupt Cps and Juvenile courts for 4 years and its going to be to be 5 years in October. We have 6 children. That wants to go home. One of our children grew out of Cps. So that leaves 5 in this nasty croupt abusive system. Now our children got removed from home due to false allegations. And cps and the Judge had ruled out all allegations at trail. And they still dont want our children to go home. Our 2 biys are in a group home. And our 3 girls are at a foster home. And the foster mother that has our girls are wanting our girls so bad that this woman is bribing the caseworker and the courts. Shes even got our girls making fun of us and her brothers at the visit. Its not their fault. Now this Judge Honorable John Phillips said at trail. That je is not going to take our parental rights away. And the foster mom got made and stormed out of court. But we has contacted governor's, senators and inspector general. About this case and it didn't get usno wheres. No help. In fact it made things worst. The more you complain the more cps and the courts spank your hands. Like shame on you. We are asking for help on this case. And I dont believe you need a attorney to justify your rights. We have constitutional rights. We have a voice too. We are being treated unfair and wrongfully in this case. This case has gone to far. And I believe it will never quit. We dont do drugs nor alcohol. We have done drug test and random ones to and we are clean. Cps is abusing their authorities and abusing the texas seal. Please if their is any help in bring our children home. It would be greatfully appreciated. We need help to break through this croupt system. Please call or text. 936-689-6525. Email is snigbig@gmail.com. Thanks for taking your time to read my letter. And hope there is help. Again Thank you. Glenn and Christina Goodman.

A family I know was threatened into signing a pcsp and was told they could talk to and see their children at any time. Cps did not let the family choose where the children would go and the children were put into 2 different homes. Cps violated the parents rights to have the children moved, after the mother sent a statement out of the cps handbook to the investigator an emergency removal was done. They twisted and used true events to suit their purpose for the removal. Cps has lied under oath in court and has not had to face any consequences for their perjury. I believe that they should be held accountable for actions such as these. Also the children have had no contact with each other for 3 months

My husband and I are victims of Jim Wells County CPS corruption. They immediatly took conservatorship of my two children, altered and destroyed files to gain upper hand in the case with judge, attorney, police, cheif, sherif,ect. Backing each other up. All this was done with a warrant that was not signed by a judge nor a case number. We are denied contact with our children it has been 4 mths now without hearing our childrens voice and seen them.

It is sickening how they believe adults over children. Kids are being sexually abused and neglected nothing is done about it. El Paso Police Department is corrupted as well as the court system here in El Paso. So many children people getting raped and nothing is being done about. Cases being dropped, yet their is evidence. Watching and seeing all this makes you wonder when it is going to stop. El Paso is not same it used to be talk about corruption
