Introduction of our fully state licensed investigative agency, how and why we are the leading firm in the nation in helping parents nationwide, whom are dealing with unfair, corrupt, fraudulent, and reckless DSS/CPS cases

We would like to welcome you to our fully state licensed investigative agency, helping parents nationwide with DSS/CPS cases. With having over twenty-two years of expert investigative experience combined with the highest of academic training, our investigative firm and/or its chief investigator Jon Scott, has created and developed the much needed specialization of providing the highest level of expertise in fully state licensed investigative services for each state of the United States as hired from the originating state where the lawful licensed professional is located - in parental rights defense and litigation investigations. Our firm has clients in almost every state of the country whom are dealing with a corrupt Child Protective Services department.

Our firm legally investigates all United States Departments of Social Services (DSS), namely we investigate Child Protective Services

fraud, we investigate child protective services corruption, (we investigate CPS fraud and we investigate CPS corruption), we investigate and provide help for DSS Corruption (help for Department of Social Services Corruption), we investigate and provide help for Child Protective Services Corruption, (help for CPS corruption), investigate and provide help for Social Services Fraud, (help for DSS Fraud), investigate and provide help for Child Protective Services Fraud (help for CPS Fraud), investigate and provide help for Child Protective Services Corruption (help for Child Protective Services corruption), investigate and provide help for Parental Rights Violations, and namely, expert Parental Rights Defense Investigations and are Parental Rights Defense Investigators. Many times, our clients hire us and get all the results they are looking for - without ever hiring an attorney, or AFTER hiring one or more attorneys whom have done little to nothing to help them.

WE HAVE LEGALLY FORCED DSS/CPS AND COURTS TO RETURN CHILDREN TO THEIR PARENTS OR LEGAL GUARDIANS

As expert parental rights defense investigators, as well as parental rights civil litigation investigative experts, Child Protective Services civil litigation investigative experts, our team produces unsurpassed results for our clients. Namely, we in fact have a strong track record of investigating and seeking justice for DSS Social Services Fraud, investigating and seeking justice for Child Protective Services Fraud, investigating and seeking justice for Child Protective Services Corruption - which many times has resulted in the return of the children back to our clients.

Our firm fully investigates Child Protective Services corruption cases where our powerful investigative efforts have in fact been the exact reason why many of our clients' children have been returned to them. Our clients thank us over and over again for being the one true reason why they've been able to finally get back their child or children, and to also pursue the most probative evidence towards preparing it for trial against these corrupt persons and their departments.

We investigate to secure evidence and prepare it for Federal and civil lawsuits against DSS fraud, Federal and civil lawsuits against Child Protective Services fraud (lawsuits against CPS fraud), civil lawsuits against Child Protective Services corruption (lawsuits against CPS corruption), civil lawsuits against Child Protective Services parental rights violations (lawsuits against CPS parental rights violations), and civil lawsuits against the Department of Social Services (civil lawsuits against DSS).

Our firm takes every legal step necessary to investigate complaints against Child Protective Services (complaints against CPS), complaints against child protective services fraud (complaints against CPS fraud), and complaints against child protective services corruption (complaints against CPS corruption). Our very strategic planning and actions work to investigate DSS fraud, investigate Child Protective Services fraud (CPS fraud) and investigate Child Protective Services corruption (CPS corruption) against these criminals to seek indictments for the arrests of fraudulent Child Protective Services case workers (arrests of fraudulent CPS case workers), arrests for fraudulent DSS workers, Child Protective Services committing fraud and violating parental rights (CPS committing fraud and violating parental rights), Child Protective Services case workers committing fraud and violating parental rights, arrests and lawsuits against corrupt Child Protective Services social workers, staff, and administrators.

We also hold that nobody is above the law, not even judges. Whereas, our very powerful investigative strategies and courses of action our firm takes, goes all the way to the top of the illegal food chain of Child Protective Services corruption to include the seeking of a Grand Jury indictment against any judge or others who or whom knowingly commits Child Protective Services fraud and corruption. We are also fully state licensed to secure any and all evidence and to prepare it to be used before committees, boards of award and arbitration, as well as for full civil and criminal jury trials.

With over twenty-two (22) years beginning with obtaining the very highest of academic legal studies, then going on to conduct thousands of fully state licensed investigations combining a large variety of both civil and criminal issues - and now, at over seven (7) years beginning from founding and creating this investigative specialization of Parental Right Investigations, to the full day-to-day continuance of making it more effective for each new case and with consistently producing better results on cases throughout all of these years - I can say with absolute honesty an assurance that our clients can count on our firm to work on their case with utmost care, professionalism, expertise, efficiency, attention to detail, integrity, and passion to win, find justice, reach all legal investigative goals and objectives, and to gain the highest of prosperities for our clients. That is my personal promise and commitment.

Sincerely,  
Jon Scott, Chief DSS/CPS  
Parental Rights Defense & Litigation Investigator

We are the number one leading firm in the nation that specializes in Parental Rights Defense Investigations. simply bullied into signing a "Parental Reunification Plan" (by court appointed attorney [Brendan Edge](#)) - to force him to believe that he needed to stop worrying about his -----

rights to due process of examining the doctor's evidence against him -- and to start "cooperating" with DSS.. This judge also knew the parent had at least two case witnesses whom arrived to testify in court and had to fly in over four hundred miles away (from the state the parent is originally from) and willfully refused to accomodate the parent's witnesses to **EVER** testify. After two days of waiting for their turn to testify, the father's mother and sister could no longer wait around in the court house (above pictured) and could not be gone any longer from their professional jobs (nursing and caregiving) which resulted in them never being able to testify about how truly great the relationship was between father and son (which they've witnessed many times). This just gives you a small example of this corruption - please feel welcome to [read the full story](#) to be utterly disgusted and fully aware and informed about how these judges and other participants to a DSS case commit acts of fraud, willfull deception, willful unfairness, carelessness, recklessness, and judicial corruption.

"I have known Jon Scott for 10 years and he has the biggest heart any one man can have. He was always there when I needed to talk. He's a very hard working man that will give you the shirt off of his back. He loves his child unconditionally, always talking and doing his best for him. I know how much his son loves him. This is wrong, very wrong and I pray that his son is back where he belongs soon. Jon loves kids and that's all he would talk about when we met. He wanted his own child to love, care, and give him the best life possible." Melanie A.

### **Our Commitment to Our Clients:**

- We fight hard to secure the best evidence and prepare it for our clients to help them reach their goals in their CPS/DSS case which is normally the reunification of their children.
- We legally hold those accountable for violating the rights of our clients.
- We secure the best possible evidence and prepare it for our client who is interesting in using our investigative work towards pursuing a Federal Civil Rights Violation Lawsuit. Since 2009, our work has not only been the actual cause of many reunifications - we have also produced an Appellate Court Victory!

winning any lawsuit against any DSS/CPS agency.

### New 2016 Announcement!

As of this year (2016) our firm wishes to show its gratitude and true appreciation for ALL of our very many loyal, highly appreciated, and great team-work oriented clients by helping ALL families. The help and showing of appreciation we are referring to is the payment of part of ANY future Class-Action lawsuits that our firm helps to win! This help and showing of appreciation is at our firm's full discretion and choice however - any and all clients whom have been long-term patrons, supporters of our cause, and the very many great clients we've had the honor to help become reunified with their children - will not be forgotten. We want as many people possible to win - WITH US and to Celebrate Victory TOGETHER.

### Requests For Help - Phone Call for Initial Case Assessment & Consultation (before we are hired)

Thank you for seeking our firm's highly professional and expert help. We have a very fair and reasonable \$75.00 Initial Case Assessment Fee which is 100% Money-back Satisfaction Guaranteed (by Paypal) and covers the costs for our firm to perform your case assessment (and let's us better know who can truly afford to hire us rather than seeking our help for free plus, this payment also makes it possible for our investigative services to be offered at a much lower price to more people, rather than only serving the rich and wealthy families. That means if you cannot afford this very fair service fee which also enables us to help more people, it is very unlikely we can help you - since you would not be contributing towards what's NEEDED For The Costs of PROVEN EXPERT HELP on YOUR CPS/DSS case as well as helping us lower the costs for EVERYONE. By law, we can and have charged up to \$250.00 or more for this highly demanded and needed service. Prices may vary at anytime due to demand and our availability.

This fee is also applied towards your flat-rate quote for hiring us after the case assessment, (of which fair and reasonable quote shall be based on this case assessment and given to you after the assessment between 1 – 3 business days after we use the assessment to research the people involved, county, jurisdiction, facts, circumstances, cross-reference similar cases, and legalities of your case).

We also offer a 100% money-back guarantee of full customer/client satisfaction of our Case Assessment so there is no risk involved for our clients to get started having us professionally assess their cases and determine a fair and reasonable flat-rate quote for hiring us.

We also accept payment for the Case Assessment VIA Paypal which provides full consumer fraud and scam protection. Once payment is made, you will be directed back to the website to submit your contact information (Name, Number, Email, and any details you would like to inform us about your case) for the nation's leading expert and pioneering parental rights investigator (Chief Inv. Jon Scott) to call you for the assessment within three (3) business days. Feel welcome to also check our very strong testimonies below.

We also try our best to make our investigative services affordable to everyone and, all clients whom pay for the case assessment will also be included in our list of parental rights clients to be considered to receive part of monetary winnings/awards of any and all future lawsuits that our firm helps to win for other clients, where our firm wishes to also financially help these other families that have been victimized by DSS/CPS (especially financially) and in need of such help. We have a strong ethic for us ALL to win together (not just for our firm or the families whom could afford to hire us).

### Other terms are effective as follows:

1. We hope you will make it possible for us to help you. For those clients whom do not wish to pay the fair and reasonable \$75.00 case assessment fee, you can still submit a request for help with the form below however, we absolutely cannot guarantee an assessment and due to the very high demands of our services, personal help requested, and very high success rates for helping our clients it will take at least two (2) months before maybe one or two will be read and considered for an offer to have a free case assessment (only) however, over ninety (90) percent of those emails do not get viewed due to the fact that we are already constantly helping those families whom have put their faith and trust in hiring our team of TRUE LICENSED EXPERT CPS/DSS INVESTIGATORS rather than just hoping to obtain our very relentless, highly assertive, highly aggressive, hard work for free.

2. Our clients routinely tell us that our quotes are more than fair and of the best value to them for our highly professional and expert help). ALL clients whom hire our firm for our Expert CPS/DSS Investigative Case DEFENSE are also able to call/text Inv. Jon Scott throughout their entire case for ongoing help, consultations, and team-oriented case development (towards actual parent-child reunification). PLEASE MAKE THE PAYMENT of \$75.00 IF YOU TRULY WANT EXPERT HELP & SERIOUS CASE DEFENSE

AND SUPPORT.

3. AGAIN, PLEASE MAKE THE PAYMENT TO MAKE HELP POSSIBLE. WE WORK for a living and EARN IT PER EACH CASE.

**Case Assessment Testimonies:**

Juan C. – Inv. J. S: How would you rate our overall performance on a scale of 1 to 10 with ten being the best possible service? Juan C: "A ten – I would say. I appreciate, extremely appreciate how thorough the interview has been. I appreciate the patience you've had with me. Because this is a little overwhelming. I understand I may have been a little excited but you've been very patient, and very attentive, and very professional – and I certainly appreciate that. I'm grateful for the time you've taken to assess the case. The quickness, we've gotten a response very quickly and not only that but you've followed up. There's been a few time when we weren't available but you've follow-up and returned the calls and when you said you were gonna return the calls so we're very grateful for that." Inv. J. S.: Would you recommend other parents out there whom are needing the same time of help? Juan C: "Absolutely, one-hundred percent."

Albert C. -- Inv. J. S: How would you rate our overall performance on a scale of 1 to 10 with ten being the best possible service? Albert C: "I'd give you an eight to a nine on that. Because your knowledge is process about what DSS does and process of that court, what type of motions and where the court lies. You have experience knowing what each and every one of them is, where that doesn't have to be explained. That's what the discussion with you was – more expeditious and took less time. I got to stay with the facts and not have to explain the process."

Inv. J. S." Could you please elaborate a little on your past history as a legal professional?" Albert C. "Yeah, I was a civil rights paralegal."

Stanyatta H. – Inv. J. S. How would you rate our overall performance on a scale of 1 to 10 with ten being the best possible service?" Stanyatta H. "I'll say a ten. I appreciate because you got deep down into details and started asking me questions that you thought I may have forgotten about."

Requests for Free (Pro-Bono) Help (**PLEASE READ**):

You may use the form below if you would like to request help with no expectation when and if an investigator will be able to call you (knowing it will be AT LEAST SIXTY CALANDAR DAYS (If at all possible), knowing that due to the extra time the investigator will need to make this case assessment when knowing many people are only wanting the help for free - thus taking up the time we can be helping many other families whom can and are very happy and adamant about affording our highly professional and affordable investigative help. Please remember that only Approx. 5% of NON-paying assessment request help submissions get considered for free - due to our personnel's majority time that's spent on helping hiring clients. AFTER two months (from the date the form was submitted), we may look over all the NON-paying help requests and call only TWO (2) of them per each two months to provide a free assessment only. We then may or may not decide to become involved in that case and if we do accept a Pro Bono (free) case, we only offer free pro-bono cases approx. 6 times per year Maximum. On average, we receive well over 7000 requests for help per year so please consider this before sending in the form below. The Assessment fee of \$75.00 with payment made through the reliable fraud/scam protectors at Paypal (above button) is the BEST way to get started with help and the second option of \$350.00 includes not only the Investigative Case Assessment, but also Three (3) hours of Expert DSS/CPS Investigative Case Defense (this payment shall also apply to any full flat-rate retainer and service agreement that our clients may choose to sign with us to work beyond three (3) hours if necessary.

Description about what problems/issues you are wanting help with regarding your DSS/CPS Case:

Our Hater's Policy and note about the haters and people in opposition to what we do to help and bring justice to so many families:

Due to the fact that our fully licensed investigative agency is indeed the leading firm in the nation since 2009 with helping thousands of families - nationwide, we do occasionally get harassed, threatened, and even falsely smeared online by **PROVEN CONVICTED** (In CRIMINAL COURT) Sexual Predators, Pedophiles, Sexual Child Molesters, and Child Abusers. We do however, provide full investigative defense for those whom have been wrongly accused of those acts/crimes. Nonetheless, some of these types of people support the coining of the phrase "misery loves company" - by trying to attack our firm's well-proven track record of the highest client satisfaction and case success, by attempting to mislead the public online because they are either A. Mad that we cannot take on their case for free at the time due to not receiving any contributions or donations to help us fund those investigations, or B. For opting out of taking on their case due to their own behaviors being HIGHLY uncivilized (not able to communicate in a civilized manner, believing they know everything and know how to do our job better than we do, indicating they don't know what the term "team work" means. C. DSS/CPS workers, staff, associates, friends, and family members, love to try to attack us and bring us down. RipoffReport.com has been sued around 50 times and has an F Rating at BBB (Better Business Bureau) so DON'T TRUST THAT SITE.

From that, we are likewise VERY AWARE that some of the allegations made against those people are highly likely to be founded and completely true - where we'd never in a million years wish to advocate for them and we hope that they do not mislead any good parents out there who have a legitimate parental right rights violation case for us to help them with thus, so they won't be mislead by these convicted criminals and ignoramuses to suffer along with them by not getting the tremendously effective help our nationwide firm indeed has effectively provided for many years. We are also making an online list and reporting them to the proper authorities for willful harassment, willful defamation, willfully falsifying information for deceptive business practices, and others - so they cannot continue to be a public menace and threat to society. Jon Scott - Founder & National Director

FRAUD & CONSUMER ALERT - LEGAL NOTICE: RipoffReport.com is a Hater's Club. Ed Magedson (Owner) is under investigation for Fraud and Corruption and has been sued around 100 times and has an F Rating at BBB (Better Business Bureau). Complaints at RipoffReport.com are FALSE and from Hatfulness.. "Jon Scott guaranteed that he would prosecute the judges and attorneys and CPS that stole my great granddaughter" This person wrote this as ANNONYMOUS and Ed Magedson (owner and editor of RipoffReport.com) refuses to respond to validate whether the complaint or person is legitimate or not (unless of course you pay his group at least \$2,000.00). Secondly, it's common sense that no legal professional will ever state a "guarantee" that a judge, attorney, or CPS will be prosecuted neither oral or written which is likewise why this person has no evidence whatsoever of our staff, making any false guarantees whatsoever (which is what's claimed on that hater club website). Likewise, please use good judgment and common sense. ALL of the testimonies on our website (ReturnMyChild.com) are fully verifiable and we have almost 6 thousand likes on Facebook. Therefore, our staff do no wish to be used as an excuse why a parent's neglectful or abusive actions towards their own child - was the reason why they didn't get their child back. We will therefore decline helping anyone who doesn't have enough common sense to appreciate the hard work we do in helping numerous families (along with ample proof of that). Please read our Hater's Policy before hiring our team - even for the Investigative Case Assessment. Again, we have been helping families tremendously for over seven (7) years. Here is what people are saying about "RipoffReport.com (just google the owner/editor Ed Magedson) "Ed Magedson, the Criminal Extortionist and Scammer behind RipoffReport.com" Please use common sense! :-)
