As per our conversation on 9/29/2020.

Attached is the Privacy Authorization Form along with the Whistleblower Complaint with attachments that we talked about.

Parents need a fair system when dealing with Family Courts.

The Federal Government holds Parents accountable through the Deadbeat Parents Punishment Act but, does not hold State Governments accountable when they do not obey the Federal and their own State LAWS. This shows a contempt for the Parents Rights, it shows contempt for the United States Constitution which is constantly being violated by these States.

My Whistleblower Complaint with attachments clearly shows this contempt from 1978 to present day.

States are making Parents criminals with the system that we have now because Parents DO NOT have the same RIGHTS in Family Court that Criminals have in Criminal Court.

Criminals get Attorneys whether they can afford one or not, Parents do NOT. Yet, in 1952 •**May v. Anderson (73 S. Ct. 840 1952) The United States Supreme Court noted that a parent's right to "the companionship, care, custody and management of his or her children" is an interest "far more precious" than any property right. 345 US 528, 533; 73 S. Ct. 840, 843 (1952)**

So if our Children are "far more precious" than any property right WHY don't Parents have more Rights than Criminals?

So HOW does a Parent Fight Legally against a Corrupt State like Connecticut that has been under Federal Supervision by Federal Task Forces from 1989 to present with NO affect on how Connecticut treats Parents. See articles page 5 and 6 in Whistleblower Complaint.

2015 *"Federal law enforcement officers, struck by what they called the persistent criminal behavior of government officials in Connecticut, said Wednesday that they have created a multi-agency, federal task force to fight public corruption in the state.*

"U.S. Attorney Deirdre M. Daly, who announced the task force and whose office will run it, said graft has become so pervasive in Connecticut that it is 'discouraging and troubling' and a 'persistently present problem.' She also questioned the legislature's refusal to provide local prosecutors with effective crime fighting tools."

Congress needs to act to protect Parents from these States Connecticut is not alone.

I did nothing wrong my first wife became ill with Encephalitis Meningitis and went into a Coma and I needed Help and the woman that gave Birth to me But did NOT Raise me said she would baby sit and then with help from the State Stole my Children.

The State on the other hand Violated ALL LAWS from 1978 to the Present and NOW I have to compile with the Corrupt Family and Support Court Rulings all because I am Poor and cannot afford a \$500 an hour Attorney.

The Federal Government should use the RICO Act to get control over these States like Connecticut instead of helping these States violate Parents Rights!

The Corrupt State of Connecticut says that I still owe as of January 2020 \$15,389.78 for Edna and \$3,143.65 for Cynthia minus what they take from my Social Security Disability and the \$2,400 from the Stimulus of 2020 see attached. Yes they took my Wife's Stimulus even though she is not the mother of these children.

I am going to be getting a settlement from a accident. I need this settlement to pay the credit cards I used to pay for all the Co-payments for all the medical supplies and hospital surgeries and doctors Co-pays.

Now for the other issue we talked about Plastic/Polystyrene.

Here is a release I sent out to several State Representatives that I have been working with (in About 22 States).

The website, Plastic Affects Our Health That Makes Us More Susceptible To COVID-19 has been up-dated with 44 more Medical Studies totaling about 80 Medical Studies altogether.

These Studies have found other ways Plastic/Polystyrene affect the epidemics like **Gastrointestinal Tract problems, Obesity, Diabetes, Depression, Breast Cancer, Thyroid Problems, and Reproduction problems in Men, Woman and Children and other Child Data including Autism.**

You can now add **Dementia and Alzheimer's Disease** along with 3 Studies that talk about **Endocrine-disrupting chemicals** (these are the chemicals that leach into our food from Plastic/Polystyrene) affecting the brain in a way that **influences sexual selection.**
