Court Houses in this state are being talked about, and nothing good being said about them. Lets start with the Stamford Connecticut Court, Federal laws such as the A.D.A (Americans with Disabilities act). This law was created by the Federal Government to PROTECT people with disabilities, being disabled does NOT mean you have to be in a wheelchair. There are so many disabilities that cannot be seen but are being ignored. When someone falls under the A.D.A accommodations are SUPPOSED to be made available, and no discrimination should be used against these people. Sadly it is happening, the rights of these citizens are being abused, by being ignored.

When people talk, word spreads and what has been going on at the Superior Court for juvenile matters is alarming. Judge Mary E. Sommer allowing people to be bullied into psychological testing without the proper accommodations. Why is it that people are asking for assistance and they are being held in contempt for doing so? With several Dr.s giving these evaluations Dr. Kenneth Robson, Dr. Ellen B. Schwartz and a few others. These Doctors are coming up in conversations, in actual situations people have been in with either Dr. Kenneth Robson or Dr. Ellen B. Schwartz. An adult or a child should not fear a doctor, they should not feel uncomfortable around them either. Regardless it is happening, the pressure that is put on innocent children. To be accurate with any sort of testing with a child or adolescent suggestive questions should not be used, but they are. What is most concerning is the bias opinion these Doctors already have on some of the people they are supposed to be working with. While doing so they come up with false allegations and twist the story and actually try to convince you of what they are saying is true. Mind games, for what? These are lives, human beings, parents, children. Why pay such devious games? With life you are given choices, why not do the right thing for people? Keeping truth in the system, and enough with the lies and games. In the Stamford Superior Court for Family matters the cases are heard by Honorable Judge Malone or Honorable Judge Shoefield. As a Judge upholding the law is what you swore to do. Making a mockery out of our Judicial system and our Constitutional rights. People are not being heard, because they are not allowed to speak. This is in both the juvenile and family court. Citizens should be given the rights that so many have fought for. Is doing the right thing so wrong? Is tearing down people piece by piece common practice there? With so much talk about Family courts and with people taking a closer look at what is really going on inside them is not a bad idea. People are watching, people are tired of being bullied in these courts.
