It is complete. And, I have to type the sentences as they are spoken. They are verbatim. So, what you see in the transcript is what was said orally. Hope this helps.

Angela

Subject: Charles Lake's Transcript

Angela,

Thank you for the 11/4/2022 transcript; however, I do not understand why it is incomplete. Some dashes were in place of some words, and in some cases, complete statements.

Example of what is missing: **When I grabbed the five articles that showed that the Family Courts in Connecticut (U.S. Forms New Team To Fight "Persistent," "High-Profile" Corruption In Connecticut by Hartford Courant February 4, 2015) was corrupt. I mentioned that these issues were happening while I was in court and had false, corrupt judgments handed down to me. Judge HEIDI G. WINSLOW said, "I have seen them, and you can't believe everything you read." This is not in the transcript!**

I would like to know who edited the transcript. Did the judge or someone else have access to these files?

I am agitated about paying \$120.00 for an edited transcript.

I expect a reply.
